## NEWS RELEASE

### Conceptronic introduces the NEW Grab'n'GO Photobox with LCD

With the new Conceptronic Grab'n'GO Photobox, you can easily copy and store photos from your memory card to a hard disk without a computer!

This compact Photobox with colour LCD screen allows you to copy and store pictures, video and data from a memory card (from your digital camera, PDA or telephone) without using a computer and therefore it is a perfect travelling solution to take with you on your "ski" vacation. The 4-color LCD screen shows the copy process, available capacity on the Photobox and the used space on your memory card. With the two "touch" buttons you can select the power or copy function. The Photobox can also be used as an extra hard disk connected to your computer for storage and backups.

Including travel bag

Small size  
77 x 114 x 26 mm

The Grab'n'GO Photobox supports the most popular memory card families, for example the Compact Flash 1 & 2, Microdrive®, Sony Memory stick™, Secure Digital card (SD), Multi Media memory card (MMC) and TransFlash™ (adapter needed) cards.

The CPBOXLCD is provided with a rechargeable battery, CD-ROM, USB cable, Multi language manual and Power adapter for charging the battery. Thanks to the light & strong aluminium design of the Photobox and the provided traveling bag you can take it easily with you wherever you GO!

#### The Grab'n'GO Photobox is available with the following configurations:

- CPBOXL40 - 40 GB
- CPBOXL80 - 80 GB
- CPBOXL120 - 120 GB
- CPBOXL160 - 160 GB
